Items of business:

1. The Peugeot Car Club Of Western Australia Inc. was incorporated on 6<sup>th</sup> July 1984.
2. In order to correct details on the Clubs Bankwest Account, the account name should be changed to The Peugeot Car Club Of Western Australia Inc.

President's Report: We will mark the club 35years anniversary this year but there remains a question mark over the club viability as club members continue to age. We need to attract new younger members into the club. The club is in a good financial position but needs to find some new sponsors for next year. Thanks to Allpike Peugeot for their sponsorship this year. Due to the recent changes, both Allpikes and DVG Melville have lost the rights to sell Peugeot in Western Australia. Some of our events such as the fuel economy run were not supported this year whilst others such as the Bastille Day dinner and the weekend away continue to be popular. Perhaps the club should try to become involved with the other French car clubs when planning future events. Attendances at club meetings have been good this year and the idea of bringing in "guest speakers" should be continued. We lost one of our well respected and enthusiastic club members in Bob Pinkerton this year. There needs to be some rational discussion about the French Car Festival. The constitution is on its way to being sorted out and thanks to those involved in this complex task. Thanks to all the committee members who have helped out in 2017, and thanks to all the members who have continued to support the club. *(summary only) Editor*

Meeting closed: 09.30 for coffee and cake.
